## PROJECT OVERVIEW

Located in Edgewood, just outside Orlando, **Jamaica Building** is an industrial property shared by two tenants. **C-PACE** financing helped fund a rooftop solar system designed to reduce the building's reliance on utility power and lower electricity costs for both tenants.

## ABOUT OUR CAPITAL PROVIDER

**FASTPACE** is a streamlined **C-PACE** financing platform designed to make the process easier for lenders, property owners, and project partners. It simplifies documentation, transaction management, and back-office support while expanding access to financing for energy efficiency, renewable energy, and resiliency improvements. By reducing complexity, FASTPACE helps more projects move from planning to completion.
